

Cathedral City

ACTIVE TRANSPORTATION PLAN

The City of Cathedral City is developing an Active Transportation Plan. This plan will identify strategies and improvements to make walking and biking in Cathedral City safer, more comfortable and more enjoyable. The Plan will also look at signage and wayfinding and how it could encourage active transportation.

THE OBJECTIVES OF THE PLAN ARE:

Build on regional and local efforts to support active transportation

Create safe streets for cyclists and pedestrians, with a special focus on the most vulnerable users

Connect people and places through infrastructure improvements and wayfinding

Throughout the duration of the planning process, the project team will be hosting various engagement events and opportunities in order to collect community input. Your feedback and ideas will help shape the future of Cathedral City!

ENGAGEMENT ACTIVITIES WILL FOCUS ON THE FOLLOWING QUESTIONS:

Where are the areas in Cathedral City that need the most improvements for walking and biking?

What kind of improvements would you like the City to implement?

What kind of signs would help and encourage you to walk and bike more in your community?

WHAT IS AN ACTIVE TRANSPORTATION PLAN?

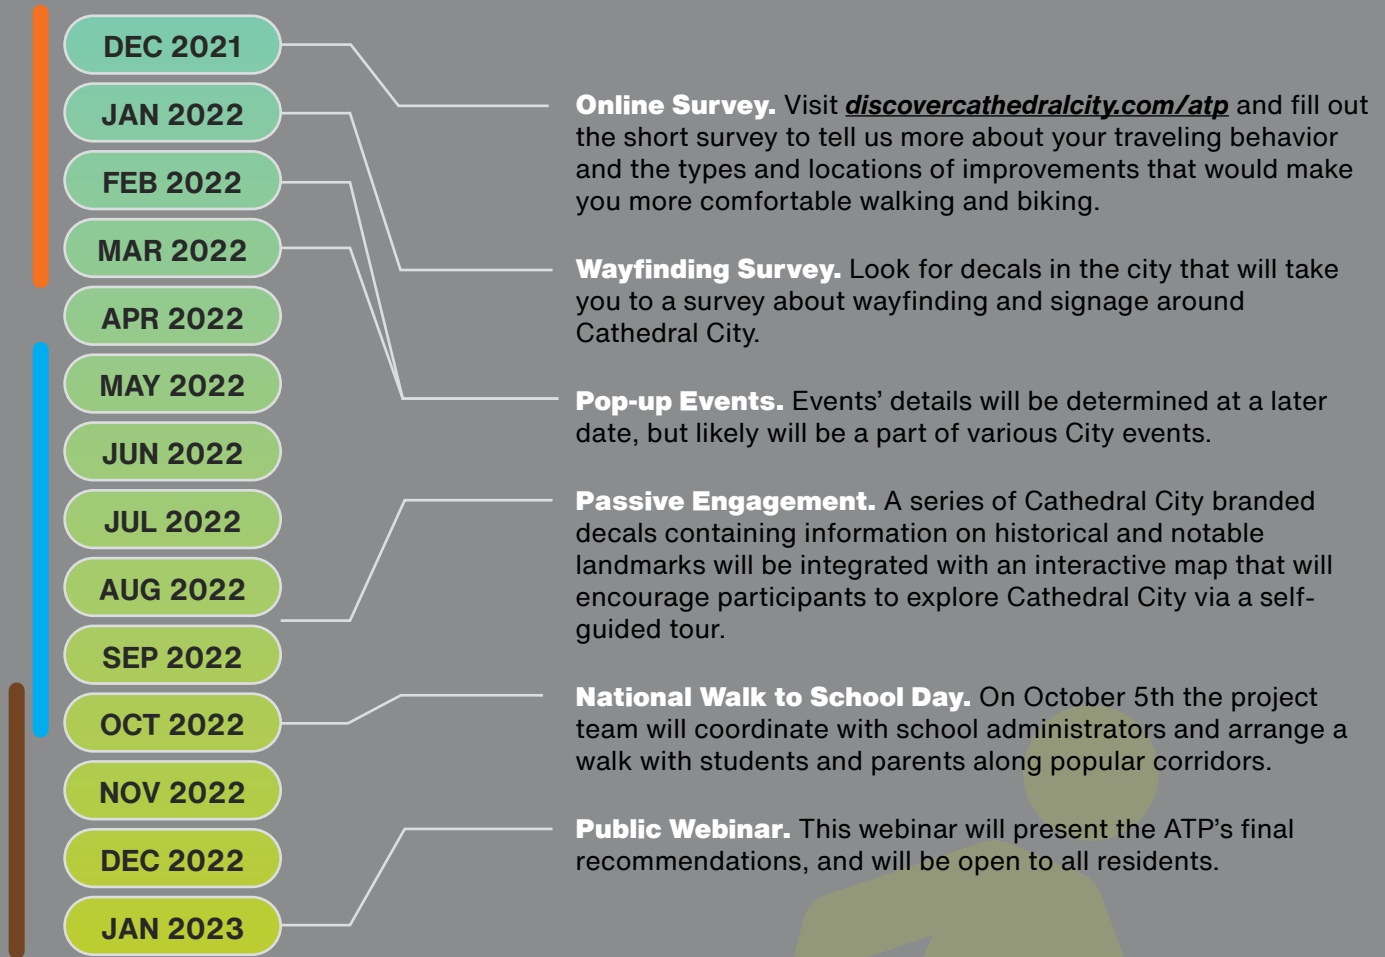

An Active Transportation Plan is a document that looks at existing infrastructure and traveling behavior of a given community to identify specific strategies and actions to improve conditions related to walking, biking and living an active lifestyle. It is shaped by the residents and users of the road, which is why your participation in this process is extremely important.

There are many ways you can participate:

- Provide your input through several of our online tools. Please visit discovercathedralcity.com/atp to participate.
- Come meet with us at public events and let's discuss your vision for an active Cathedral City.
- Participate in our passive engagement activities. Look out for signs in your city that will ask you specific questions related to the Plan, or will guide you on a fun tour around your city.

A calendar of activities can be found below. We look forward to hearing from you.
