Community Update by Community Development Director, Pat Milos

Community Development Department

**Dedicated to service, committed to neighborhood
preservation and quality of life in Cathedral City**

The City of Cathedral City is dedicated to providing the highest level of customer service while improving the standards in our city. To that extent, the City will be undertaking a project to make improvements to our Lobby in the Civic Center. The project will focus on improving our customers experience and provide improved security for our operations. Over the Holidays the front lobby and reception area of City Hall will undergo a transformation that will provide the general public with a more comfortable atmosphere and a warmer reception when conducting business with the City. Renovations will include the creation of a "Welcome Center" where you will be personally greeted by a member of City staff. The lobby improvements will allow the public to fill out permit applications, acquire information on upcoming events, activities, and updates to policies and procedures of interest in the air-conditioned comfort of a quality based atmosphere. The renovations will also allow staff to provide a more personal, one-on-one experience for our customers and visitors in a more controlled, secure, orderly environment. We look forward to having the new "Welcome Center" operating at full capacity by the first of the New Year.

The City has made great efforts over the last several years to enhance and improve the image, appearance and livability of our City and its neighborhoods. We are also excited to welcome back our "seasonal residents" and are anticipating an increase in guests with the addition of the new hotel in town and the valley concert events. It is prudent at this time to remind everyone of some of the common issues that occur with the increases in seasonal population and to remind our residents of some small efforts they can take to make our City more attractive and livable.

Parking on Landscape: With the increase in visitors comes an increase in the number of vehicles that need to be parked; please be reminded that parking on unpaved or unimproved surfaces is never allowed. CCMC 13.80.050, 11.74.060

Trash Can Storage: Please help us by storing your trash receptacles out of public view by retrieving them as soon as possible after your scheduled pickup. Please remember that bulk item pickup is a service provided by BurrTec Industries, but requires that pickup be scheduled with them prior to placing any items out in the public right of way. Items must be placed at the curbside no earlier than the day prior to the scheduled pickup. CMCC 13.80.090

Garage Sales: This time of year also brings an increase in garage sales as we "de-clutter" to make room for new stuff. Please be aware that the garage sale permit fee has increased to \$25.00 and is now valid for three (3) days; typically, Friday through Sunday. CC Resolution 2017-37

Just by taking a few common and simple steps, we can collectively make huge, lasting, and positive strides in our community.
